THE MAPBOOK
Modi in Maps

MESSAGE FROM CHAIRMAN

The Map Book is a mirror of Modi Rural Municipality that depicts various geographic themes such as infrastructure, health, water resources, communication, financial institutions and demography. It is hoped that the diversity of themes represented spatially in this book will be useful for both newcomers and residents of the city. In today's new age of global interconnectivity and interdependence, it is necessary that the public get timely and evidence based information. Maps are the best ways to depict an area in various themes. So, we are expecting the map book to be utilized properly in various development works too.

The Map Book contains data largely GPS survey. Additional data from OpenStreetMap, respective ward offices and the profile of Modi Rural Municipality have also been used in The Map Book.

I would like to thank Kshitij Raj Sharma , Susmina Manandhar, Sovas Tiwari , Shradhha Sharma & Sandhya Dhakal for their excellent effort during this project.They all made it possible, this mapbook is a result of their hard work and dedication .I would also like to thank all contributors who have provided valuable information during the preparation of this book and appreciate all those who had extended their hands in contributing to make map data rich. My special thanks to Mr.Kuman Sing Gurung,Chief Administrative officer of Modi Rural Municipality for coordinating the overall process of the publication of The Map Book.
I would be very pleased to receive suggestions and feedbacks regarding the map book and assure you that all the weakness will be improved in the later editions of map book.

ABOUT MAPBOOK

The Map Book is a mirror of our Gaunpalika that depicts various geographic themes such as infrastructure, health, water, communication, financial institutions and demography. The Map book is a way to make citizens and visitors aware and updated on the various components of the society we share. The information provided in map book is an opportunity for the public, researchers and businesses to look at how our village is grown over the years and plan for the future.

All the information can also be retrieved using Openstreetmap.org and Maps.me application(Available in Android and IOS devices)
